RULA L:4 R:4

NIOSH LI:1.28 (Caution)

Snook:25.0% cap (High Risk)

MAC:9 [A] Medium Risk

MEDIUM RISK

This is what KnowErgo sees

Every joint tracked, every angle scored, live on the floor.

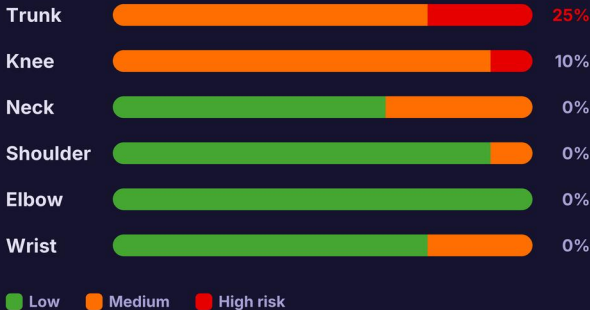

→ next: Where the task hurt most

— — — — —

Where the task hurt most

Share of the clip each joint spent above its risk threshold.

→ next: The joint that drove the score

The joint that drove the score

- Neck
Medium
- Trunk
High
- Shoulders/arms
Low
- Knees/legs
Medium

Trunk was in the red 25% of the clip — fix that first.

→ next: of the clip, the trunk was past its red line

25%

of the clip, the trunk was past its red line

Averaged over every second, both sides scored independently.

Re-assess after the fix and prove the risk dropped
